PUBLIC NOTICE: SUMMIT CARBON SOLUTIONS • IDA COUNTY

INFORMATIONAL MEETING Summit Carbon Solutions, LLC ("Summit Carbon Solutions") with a principal place of business of 2321 North Loop Drive, Suite 221, Ames, IA 50010, is developing a carbon capture, storage, and sequestration project, the Midwest Carbon Express ("MCE"), that will enable ethanol plants and other industries in Iowa and four other Midwestern states to reduce their carbon intensity by capturing carbon dioxide ("CO2") from their industrial processes and transporting it through a pipeline system to North Dakota, where it will be permanently and safely stored underground in deep geologic storage locations. This is to notify you that as part of this project, SCS Carbon Transport, LLC ("SCS Carbon Transport"), a subsidiary of Summit Carbon Solutions with a principal place of business of 2321 North Loop Drive, Suite 221, Ames, IA 50010, proposes to build a pipeline connecting one or more ethanol facilities in your (or an adjacent) county to the MCE to capture and store CO2 emissions from such facility. The Iowa Utilities Commission recently approved the application for the MCE to be built in 29 counties; this docket is among a series of new dockets currently pending to connect additional facilities to the MCE.

A public informational meeting regarding SCS Carbon Transport's proposed pipeline in Ida County will be held by the Iowa Utilities Commission. At the meeting, information regarding the legal rights of affected landowners and details of the proposed pipeline will be presented. Time will also be allocated to address questions from landowners and affected parties. The meeting is expected to last approximately one hour. Specific details of the public informational meeting are as follows:

When: Sept. 19, 2024 at 6 p.m. Where: Cobblestone Holstein, 2011 Indorf Ave. Holstein, IA 51025 Light refreshments will be provided

SCS Carbon Transport will be seeking permanent easements for its pipeline, as well as easements for temporary construction workspace, access and other rights as may be necessary to construct and operate the pipeline SCS Carbon Transport is committed to working with landowners to reach voluntary agreements for necessary easements. Our goal is to avoid any use of eminent domain, but in some instances, we may need to request

approval from the Iowa Utilities Commission to obtain easements for the construction and operation of the pipeline by eminent domain (condemnation). The Iowa Utilities Commission, in considering a petition requesting the right of eminent domain, does so in an open and public process. The Iowa Utilities Commission will schedule a public hearing to consider the petition, including the route, any filed objections, the request for eminent domain authority, and to hear testimo-

ny to aid it in determining whether to grant the permit and the right of eminent domain. If the Iowa Utilities Commission grants the right to acquire property rights by eminent domain and voluntary easements are not obtained, it is possible that SCS Carbon Transport may acquire easements by condemnation.

Included with this notice is a map showing the proposed route and the notification corridor in which potentially affected properties in Ida County are located. The final alignment of the pipeline within the identified corridor will be selected after survey and negotiations with landowners are complete. Please join the informational meeting for additional details regarding the purpose, timing and routing of the proposed pipeline. Any affected landowner or affected person with a legal interest in the property or residing on the property has the right to be present at this informational meeting and to file objections with the lowa Utilities Commission. Under lowa law, SCS Carbon Transport cannot negotiate with landowners in Ida County before the public informational meeting on September 19, 2024.

If you are unable to attend this informational meeting, you may also attend one of the other meetings scheduled to take place in the coming weeks. A list of meeting dates, times and locations can be found on Summit Carbon Solutions website at www.SummitCarbonSolutions. com. Persons with disabilities requiring assistive services or devices to observe or participate should contact the Iowa Utilities Commission at (515) 725-7300 in advance of the scheduled date to request accommodations. If you would like to learn more about Summit Carbon Solutions' MCE project or SCS Carbon Transport's proposed pipeline in Ida County, please visit our website at www.SummitCarbonSolutions.com or email us at InfoIA@ summitcarbon.com.
